

## Dugout One-Hitter

Dugout one hitter is a [small portable pipe](#) perfect for on the go smoking. It has a built in carburetor and a bowl chamber that expands as you inhale, making it easy to smoke. This dugout pipe has a small design that makes it easy to carry around and travel with, but it still produces great clouds of vapor.

The Dugout One-Hitter is made from high quality borosilicate glass and features a carb hole on the left side of the bowl. The carb hole allows you to control your hits by regulating the amount of air going into your hit. When you want more smoke, simply cover up the carb hole with your finger or thumb. If you want less smoke, just leave it open for more airflow!

This <https://www.muxiang.shop/dugout> pipe comes with everything you need to start smoking right away including:

1x Dugout Pipe

2x Replacement Screens
